HYPER/HYPO - GLYCEMIA

SUPPLIER: ADVANCED MEDICAL NUTRITION (AMN)

AMN-GC1 GlucoPack 30Pkt (Glucose) 45.00

Comprehensive support for glucose metabolism.

Our most complete nutritional support program for diabetics is now updated to include Glucoset along with a full array of nutrients involved in control of blood sugar levels, antioxidant protection, cellular receptivity to hormones, and capillary blood vessel integrity.

Canister contains a 30 day supply.

INGREDIENTS:

EACH PACKET CONTAINS:

3 x Basic Preventive 5 tablets (multi-vit/min)

1 x Glucoset capsule

1 x SuperEPA softgel

1 x SuperEPA softgel
1 x Borage Seed Oil Softgel
RECOMMENDED USAGE:
Take 1 packet twice daily or as directed by
a health care professional.

[Go to Top](#)

AMN-GST Glucoset 60C (Diabetics) 24.80

This unique approach to glucose management aggressively supports nutritional control of blood sugar levels, helps prevent the destructive effects of protein glycation, and provides antioxidant action to combat oxidative tissue damage.

INGREDIENTS:

SERVING SIZE: 2 caps

AMOUNT PER SERVING: %DV

Thiamin (pyrophosphate).....50 mg 3333

Biotin.....2,500 mcg 833

Chromium (polynicotinate).....800 mcg 667

Alpha-Lipoic Acid.....200 mg **

N-Acetyl-L-Cysteine.....500 mg **

Gymnema sylvestre leaf, dried extract min. 25% gymnemic acids...400 mg **

Gelatin, cellulose, water, magnesium stearate.

**DV not established.

RECOMMENDED USAGE:

Take 2 capsules daily, or as recommended by your health care professional.

SUPPLIER: BIOMAX FORMULATIONS (BMX)

BMX40451 DiaBeatEze Drops 1floz 24.50

Recent statistics reveal that the average American is consuming 145 lbs. of sugar a year. The results of this sugar binge are: hyperinsulinemia, hyperlipidemia, obesity, cardiovascular disease, diabetes, Syndrome X, A.G.E. products, cataracts and various forms of neuropathy. These are the chronic diseases of our times. The frontline organ dealing with this glucose onslaught is the pancreas. The increasing levels of diabetes and dysglycemia problems are indicators that the pancreas is not up to dealing with this level of sweetness. Gymnema extract has the ability to normalize blood glucose function by repairing/re-vitalizing ing and regenerating the beta cells of the pancreas.

INGREDIENTS:

SERVING SIZE: Approx. 5 drops(0.19ml)

SERVINGS PER CONTAINER: Approx. 160

AMOUNT PER SERVING: %DV

Niacin.....1.80 mg 9

Chromium Polynicotinate.....2.40 mg 2

Gymnema Sylvestre.....5.56 mg *

Methylsulfonylmethane(MSM).....0.60 mg *

Boron Chelate.....0.50 mg *

Vanadyl Sulfate.....1.40 mcg *

Purified Water, Glycerine, Stevia, Natural Flavors.

*DV not established.

RECOMMENDED USAGE:

Take 5 drops in the mouth three to five times per day, or as directed by a health care professional. Shake well before using. For best results, hold under the tongue for two minutes, swish in cheeks, before talking or swallowing.

NOTE: Monitor blood sugar levels very closely when first taking this product. Consult with a health professional.

CVR-0172 Glucostabil 100C(125mgAlanine) 16.95

CVR-0175 Glucostabil 180C(125mgAlanine) 29.95

Also known as Hypoglyform.

Chromium Complex with Niacin. Glucostabil is a scientifically-designed dietary supplement containing non-yeast GTF in conjunction with other synergists. In addition to trivalent chromium, reduced glutathione and niacin (the core constituents of the GTF molecule), Glucostabil incorporates alanine and high-methoxy pectin (from apple pomace).

EACH CAPSULE CONTAINS:

Alanine(free form amino **acid** crystals).125 mg

Pectin (High-Methoxy Fraction).....300 mg

Glucose Tolerance Factors (GTF) containing:

Chromium (trivalent).....50 mcg

Glutathione Complex..... 60 mg

Niacin (75% USRDA).....15 mg

Contains no binders, fillers or preservatives to insure maximal tolerance and absorption.

RECOMMENDED USAGE:

Take 2 capsules before meals or as directed by a physician.

NFF10211 Gymnema Sylvestre 450mg 90C 20.10

Gymnema sylvestre, standardized to 75% Gymnemic acid. Gymnema has a long history of use in Ayurvedic medicine. Recent studies have noted Gymnema Sylvestre's ability to help normalize glucose levels in the bloodstream. Additional studies have shown it acts to block the absorption of sugar into the body. It also causes up to 50% of consumed sugar to pass unabsorbed which significantly reduces the desire for sugar.

INGREDIENTS:

SERVING SIZE: 1 capsule

AMOUNT PER SERVING:

Gymnema sylvestre.....300 mg

(Gymnema leaf, stem and root)

Gymnema sylvestre.....150 mg

(powdered extract 5:1 75% gymnemic acid)

Gelatin capsule (gelatin & water)

RECOMMENDED USAGE:

Take 1 capsule two times a day.

If you are pregnant or nursing, seek the advice of your physician before using this or any product.

NRL01767 GlucoNase 60T (250mg Gymnema) 25.95

Gluconase is a highly effective product which incorporates a "tri-directional" approach. This formula is comprised of unique ingredients which have all been validated via human studies. It contains a standardized extract of Gymnema sylvestre, Magnesium citrate, Lipoic acid, Pyridoxine HCl, and VanaPhage, a proprietary organic vanadium complex chemically known as bis-maltoleto-oxovanadium (BMOV). No vanadyl sulfate is utilized!

INGREDIENTS:

SERVING SIZE: 1 tablet

EACH TABLET CONTAINS: %DV

Gymnema sylvestre.....250 mg *

Standardized for 25% gymnemic acids.

Magnesium (as citrate--elemental)...75 mg 19

Lipoic acid.....25 mg *

Pyridoxine.....10 mg 411

Vanadium (elemental).....100 mcg *

(as VanaPhage, a proprietary organic vanadium complex)

Microcystalline cellulose, dicalcium, phos-

phate, calcium carbonate, croscarmellose sodium, soy polysaccharides, hydrogenated vegetable oil, silicon dioxide, magnesium stearate.

*DV not established.

Contains no yeast, corn, soy, wheat, egg, dairy products, vanadyl sulfate, or other common allergens. All fillers, binders and excipients are of natural vegetable origin. This product is vegetarian compatible.

RECOMMENDED USAGE:

Take 1 tablet at beginning of the morning and evening meal, or as directed by a physician.

[Go to Top](#)

NRL-GNFT GlucoNase Factors 90T(Mucopol) 24.95

Gluconase is a highly unique and effective natural product to be used as monotherapy or as an adjunct to GlucoNase, VanaPhage or other specific compounds or formulations. Individual ingredients have been validated by multiple scientific studies via peer-reviewed journals.

GlucoNase Factors contains Opuntia streptacantha, a rich source of mucopolysaccharides and soluble fiber. This botanical indigenous to the arid regions of the Southwest and Mexico, has been the subject of numerous scientific studies. GlucoNase Factors also contains Momordica chirantia, an Ayurvedic phyto-medicine as well as therapeutic potencies of biotin and chromium.

INGREDIENTS:

EACH TABLET CONTAINS:

Opuntia streptacantha.....600 mg

Momordica chirantia.....200 mg

Biotin.....2000 mcg

Chromium polynicotinate.....200 mcg

Contains no yeast, corn, soy, wheat, egg, dairy products, or other common allergens.

All binders, and excipients are of hypoallergenic, vegetable origin.

RECOMMENDED USAGE:

Take 1 tablet three times daily with meals, or as directed by a physician.

PBL40060 Bitter Melon 500mg 100C 24.95

Diabetes, blood sugar maintenance, immune conditions and retroviruses. Extensive clinical research for control of diabetes (including insulin dependent) and stabilization of blood sugar levels.

Diabetes affects an estimated 12 million people in the United States; those with too little blood sugar in their bloodstream and too much. It is slightly more prevalent in women than in men.

Bitter Melon is a vegetable used widely in China as both a [food](#) and a medicinal. The variety used in this formula is known as Momordica charantia (or "Ku Gua"), and is prized for the many beneficial properties of its "fruit", leaves and vines. This formulation uses all of the key parts of the plant and is highly concentrated in order to maximize the yield of all three target proteins.

INGREDIENTS:

EACH CAPSULE CONTAINS:

Momordica charantia.....500 mg

RECOMMENDED USAGE:

Take 2 to 10 capsules daily, preferably with

[food](#). Store in a cool, dry place (but not refrigerated). Do not use if you are pregnant or think you may be pregnant.

SUPPLIER: PHYSIOLOGICS (PLS)

PLS96549 DiaBest 1035mg 90T 25.49

Supports healthy blood sugar levels.

DiaBest is PhysiLogics' unique formula based on the most current national research offers comprehensive nutritional support for proper carbohydrate metabolism. DiaBest contains 14 powerful ingredients, which support the body's natural ability to maintain healthy blood sugar levels.

The body obtains glucose through the process of digestion. Glucose travels from the intestines to the liver, and from there it is sent out into the bloodstream to be used as an energy source for cells throughout the body.

Insulin is a hormone-protein produced by the pancreas that transports glucose across cell membranes. A balanced insulin response is an essential component of a healthy metabolism. And a well-functioning metabolism has signifi-

cant health benefits, such as optimizing the visual and circulatory systems, and helping maintain healthy weight.

Current research supports the theory that vitamins C, E, and B6, and chromium and magnesium are the most important vitamins and minerals for proper carbohydrate metabolism. Chromium works synergistically with insulin to facilitate the reception of glucose by the cells. Vitamins C and E are potent antioxidants that protect visual and circulatory systems, and promote healthy nerve function. Ginkgo biloba promotes healthy circulation throughout the body.

DiaBest offers a wide range of nutrients that can:

Support healthy blood glucose levels
Promote peripheral circulation
Nourish a healthy cardiovascular system
Help a healthy immune system

INGREDIENTS:

SERVING SIZE: 3 caplets

AMOUNT PER SERVING: %DV

Vitamin A (as retinyl palmitate) 2500 IU 50

[Go to Top](#)

PLS37932 DiaBest 2 320mg 60C(Diabetes) 17.99

PhysioLogics' DiaBest 2 is designed to complement our DiaBest formula. The five powerful nutrients combined in this formula aggressively support the body's ability to produce and respond to insulin and enhance pancreatic function. All these actions combine to help the body maintain healthy blood sugar levels – essential for health and longevity.

The nutrients in the formula include gymnema sylvestre, bis (glycinato) oxovanadium (BGOV), vanadyl sulfate, chromium, and Mormodica charantia (bitter melon). Gymnema sylvestre's active ingredient, gymnemic **acid**, is believed to support the body's production of insulin, and scientists theorize it may also help the body repair or revitalize the cells that produce insulin. Preliminary in-vivo studies suggest that gymnema sylvestre may help the body regenerate beta cells in the pancreas, which are responsible for the production of insulin.

Vanadyl sulfate supports the optimal function of the enzyme systems involved in glucose metabolism, as well as the vascular system. Bis (glycinato) oxovanadium (BGOV) is a highly effective organic form of vanadium that lasts twice as long in the body as other forms of this nutrient.

Chromium is a key component in Glucose Tolerance Factor (GTF). GTF is involved in both glucose metabolism and enhancing the body's responsiveness to insulin. Mormodica charantia, also known as bitter melon, is an Ayurvedic herb that also supports the body's ability to maintain healthy blood sugar levels.

The nutrients combined in DiaBest 2 actively:

Support the body's ability to produce insulin

Enhance pancreatic function

INGREDIENTS:

SERVING SIZE: 1 cap/SERVINGS PER CONTAINER: 90
